

Serving Southeast Wisconsin

Fee structures:

The fee we charge for a Home Performance with Energy Star assessment is a one time charge of: **\$300**

This includes the initial visit, basic testing, reporting, and phone or e-mail consultations to answer questions. This fee is fixed whether your home is 3000 sq ft or 800 sq ft. Fees are payable the day of the audit.

The fee we charge for a Home Performance with Energy Star rating is a one time charge of: **\$350**

This includes the initial visit, basic testing, reporting, computer modeling and additional reports showing the most cost effective improvements for your home and what there portion of the energy used in your home is, also phone or e-mail consultations to answer questions. This fee is fixed whether your home is 3000 sq ft or 800 sq ft. Fees are payable the day of the audit.

The above referenced costs are the best value for the money. Basic testing includes the Blower Door test, Infrared scan, Combustion safety testing, ventilation testing and reporting.

Currently, post testing is no charge to our customers and is billed to Focus on Energy.

Individual testing fees:

- | | |
|--|--|
| • Duct testing (Duct Blaster)
\$300 | • Combustion appliance testing only
\$200 |
| • Zone pressure testing/diagnostics
\$400 | • Electrical consumption analysis
\$150 |
| • Pressure panning
\$200 | • Blower door test only
\$300 |
| • Basic solar (window) evaluation
\$200 | • Ventilation testing only
\$200 |
| • Moisture meter (spot) testing
\$200 | • Infrared scan only
\$350 |

Fees for these individual tests are payable the day of the audit. If not already part of a complete Home Performance evaluation on your home the above listed fees will be added to the total cost of the audit.
